Need help with Pro Evolution Soccer 3? Konami UK Hotline Number: 09067 53 50 70
Calls cost 75p per minute. Please obtain bill payer’s permission before calling. Over 16’s only.

SLES-51912

“PlayStation”, “A○○○○” and “DUALSHOCK” are registered trademarks of Sony Computer Entertainment Inc. All Rights Reserved.
Precautions

• This disc contains software for the PlayStation®2 computer entertainment system. Never use this disc on any other system, as it could damage it.
• This disc conforms to PlayStation®2 specifications for the PAL market only. It cannot be used on other specification versions of PlayStation®2.
• Read the PlayStation®2 Instruction Manual carefully to ensure correct usage.
• When inserting this disc in the PlayStation®2 always place it with the required playback side facing down.
• When handling the disc, do not touch the surface. Hold it by the edge.
• Keep the disc clean and free of scratches. Should the surface become dirty, wipe it gently with a soft dry cloth.
• Do not leave the disc near heat sources or in direct sunlight or excessive moisture.
• Do not use an irregularly shaped disc, a cracked or warped disc, or one that has been repaired with adhesives, as it could lead to malfunction.

Health Warning

For your health, be sure to take a break of about 15 minutes during every hour of play. Avoid playing when tired or suffering from lack of sleep. Always play in a well-lit room, sitting as far from the screen as the cord will allow. Some people experience epileptic seizures when viewing flashing lights or patterns in our daily environment. These people may experience seizures while watching TV pictures or playing video games. Even players who have never had any seizures may nonetheless have an undetected epileptic condition. Consult your doctor before playing video games if you have an epileptic condition or immediately should you experience any of the following symptoms during play: dizziness, altered vision, muscle twitching, other involuntary movements, loss of awareness of your surroundings, mental confusion, and/or convulsions.

PIRACY

The unauthorised reproduction of all or any game part of this product and the unauthorised use of registered trademarks are likely to constitute a criminal offence. PIRACY harms Consumers as well as legitimate Developers, Publishers and Retailers. If you suspect this game product is an unauthorised copy, or have any other information about pirate product, please call your local Customer Service number given at the back of this Manual.

See back page of this manual for Customer Service Numbers.
Set up your PlayStation®2 computer entertainment system according to the instructions in its instruction manual. Attach game controllers and other accessories, as appropriate.

It is advised that you do not insert or remove accessories once the power is on.

Make sure the MAIN POWER switch (located at the back of the console) is turned ON.

Press the ◎/RESET button. When the ◎ indicator is green, press the ◎ button. The disc tray opens.

Place the Pro Evolution Soccer 3 disc on the disc tray with the label side facing up. Press the ◎ button again and the disc tray closes.

Follow on-screen instructions and refer to this manual for information on using the software.

Make sure there is enough free space on your memory card (8MB) (for PlayStation®2) before commencing play.

**QUICK START**

**L**anguage select screen

Before the main title screen appears you will be asked to select which language you would like to play the game in.

**50Hz/60Hz mode**

When you boot up Pro Evolution Soccer 3, you have to choose between 50Hz or 60Hz mode. Use the Test screen to check your TV configuration.

Select this option to skip the settings and go straight to the game.

**P1 Quick Start**
Start a player-versus-computer match.

**P2 Quick Start**
Start a player-versus-player match.

**Starting a Match**

The steps are the same for 1-Player Quick Start and 2-Player Quick Start.

**1 Team Select**
Select the teams to use in the match.

**2 Strip Select**
Select the strip.

**QUICK SETTING**

Select this option to quickly and easily choose a formation. Open “Formation Settings” from the Setup screen or the Pause menu and choose “Quick Settings”. Selecting an option from this screen will automatically set the formation to one of the following types.

**Balanced**
The team’s normal setting. A well-balanced formation overall.

**Defensive**
The team will focus primarily on defense. Effective when the important thing is to not concede goals.

**Attack**
The team will sacrifice defense in favour of attack. Useful when the team is behind and needs to score at all costs.

**Counterattack**
The team will focus on scoring off defense using counterattacks. Effective when the team is up against a tough opponent.

**Side Attack**
The team will attempt to attack from the sides. Effective when there are strong players on the wings.

**Centre Drive**
The team will attempt to attack by driving through the centre. Effective when the opponent’s centre is vulnerable.

**Forward Pressure**
The team will apply pressure aggressively at the front and try to steal the ball from the opposing defenders. This tactic can be used to score on a counterattack after stealing the ball.
**Basic Rules**
Game rules are the same as normal football rules.

**Field Terminology**
1. Field (pitch and the surrounding area)
2. Centre Circle
3. Touch Line
4. Goal Line (End Line)
5. Goal Area

**Match Time**
The playing time for each match can be set to 5, 10, 15, 20, 25 or 30 minutes. Match times can be changed using the Environment Settings in each game mode.

**Extra Time**
Golden goal/silver goal extra time and penalty shootouts are available depending on the Game Mode. It is possible to enable/disable extra time, golden goal/silver goal extra time, and penalty shootouts for Exhibition Matches.

**Yellow Cards/Red Cards**
Players issued two yellow cards during the same match will be sent off. Players issued a red card will be sent off immediately. Players who accumulate a total of two or more yellow cards or one red card cannot play in the next match.

**Forfeited Game**
If the number of eligible players on a team drops below seven before or during a match, that match will be forfeited.

---

**The Rules of Play**

**Offside**
An offside is called when an attacking player is closer to the opponent’s goal line than the defense line of the opposing team at the moment the ball is passed. A free kick is awarded to the opposing team.

**Maximum number of substitutions**
For Exhibition and Superstar XI matches, you can select from three to seven substitute players for a match. For Cup matches and League matches, the maximum number of players that you can change will be three. In the Master League, you may have three substitutes for regular matches, but for pre-season matches, the maximum is seven.

**Out of Play**
“Out of play” refers to times when the game is stopped after the ball has gone into touch or after a foul. Player substitutions made while the match is in progress will take place when the ball is next out of play.

**Injury**
By altering the settings it is possible to determine whether or not players receive injuries from sliding tackles or other aggressive play. Injuries can be slight or serious and are indicated on the screen by yellow and red crosses respectively. Players with slight injuries may continue to play in the match, but their performance levels will be conspicuously reduced. Players with serious injuries will not be allowed to continue in the match and are sent off the pitch immediately. In League, Cup and Masters League tournaments, slight injuries may take several matches to heal properly. A “recovering” icon may be displayed after a player has healed from a slight or serious injury. A player with this icon, although no longer injured, is still not yet at full strength and continues to suffer under a slight reduction in abilities.

---

**Light Injury**
**Heavy Injury**
**Light Injury just recovered**
**Heavy Injury just recovered**
**Multi-play**

Competitive or co-operative multi-play is possible using additional controllers (sold separately) and multitaps (for PlayStation®2) (sold separately). Connecting a multitap (for PlayStation®2) to controller port 1 or controller port 2 makes it possible to attach controllers to controller ports 1-A, 1-B, 1-C, 1-D and controller ports 2-A, 2-B, 2-C, and 2-D, enabling a maximum of eight people to play simultaneously.

The multitap (for PlayStation®2) is connected to controller port 1 and/or controller port 2 on the console.

**Items Necessary**

| 2 players: | 2 controllers |
| 3 to 5 players: | 1 controller per player and one multitap (for PlayStation®2) (sold separately) |
| 6 to 8 players: | 1 controller per player and two multitaps (for PlayStation®2) (sold separately) |

**Precautions When Using the Multitap (for PlayStation™2)**

When connecting the multitap (for PlayStation®2), always insert a controller into controller port 1-A or 2-A before inserting the remaining controllers into controller ports 1-B, 1-C, 1-D, or 2-B, 2-C, and 2-D. Inserting

Controller port 1-A (2-A)
Controller port 1-B (2-B)
Controller port 1-D (2-D)
Controller port 1-C (2-C)

**Game Controls During Matches**

**Just remember this! Analog Controller (DUALSHOCK®2)**

**Attack! Basic Attacking Controls**

- L1 button/ Switch between players
- Directional button/ Move
- Left analog stick/ Move
- ○ button/ Through ball
- ◇ button/ Centring/Long pass
- ▲ button/ Short pass
- ◌ button/ Shoot
- START button/ Pause

**Defend! Basic Defense Controls**

- L1 button/ Switch between players
- Directional button/ Move
- Left analog stick/ Move
- ○ button(hold down)/ Goalkeeper
- ◇ button/ Sliding tackle
- ▲ button/ Apply pressure
- ◌ button(hold down)/ Clearance/Pressure 2
The R3 button is pressed by pushing down on the right analog stick. Button assignments for the analog controller (DUALSHOCK®) are the same as above.

Dribbling

Dribble: Press the directional button when the ball is at your feet.
Jump: When an opponent executes a sliding tackle, press the R2 button.
Stop the ball: Release the directional button and press the R1 button to stop the ball’s movement when dribbling.
Turn and Kick: When changing directions, press the R2 button to kick the ball a long distance.

Dash Dribble
Dash Dribble: Press the R1 button while dribbling.
Super high-speed dribble: When dribbling, hold down the R1 button and press the directional button twice, and again a third time.

Passing

Short pass: Press the button to make a pass in the direction the directional button is being held.
Heel pass: Press the directional button in the opposite direction to that in which the player’s body is facing, and then immediately press the button to execute a heel pass.
Direct short pass: Press the button immediately before trapping the ball to execute a direct short pass in the direction the directional button is being held.

Long Passes

Long pass: Press the button to send a pass in the direction that the directional button is being held. The length of the pass depends on the length of time the button is held.
Direct long pass: Press the button immediately before trapping the ball to send a long pass in the direction that the directional button is being held. The length of the pass depends on the length of time the button is held.
Change sides: Send a long pass to the opposite wing by holding the directional button in the desired direction and pressing the button. The length of the pass depends on the length of time the button is held.

Through ball

Through ball: Press the button to make a pass in the direction you are selecting with the directional button.
Direct through ball: Press the button immediately before trapping the ball to send a through ball in the direction that the directional button is being pressed.
Fly Thru pass: While holding L1, press the button to send a chipped through ball in the direction that the directional button is being pressed.

One-two passes

One-two pass: Hold down the L1 button and press the button to make a short pass, pressing the button immediately before your team mate receives the ball to execute a return pass.
One-two pass in the air: Press the button while holding down the L1 button to execute a short pass, and then press the button immediately before the player traps the ball to execute a return pass.
Pass and go: Press the R2 button immediately after passing the ball to make the player who passed the ball sprint forward.

Manual passes

Manual pass: Push the right analog stick in the desired direction and then press the R3 button to execute the pass. The strength of the pass is determined by how long the R3 button is held down.
Manual long pass: While holding down the L1 button, push the right analog stick in the desired direction and then press the R3 button to execute the pass. The strength of the pass is determined by how long the R3 button is held down.
### Game Controls/Attack

**Centring**
- **Centre to the far side**: Press the button once. When there are two or more players waiting for a cross, the player furthest away will receive the cross.
- **Centre to the near side**: Press the button twice. When there are two or more players waiting for the cross, the closest player will receive the cross.
- **Centre along the ground**: Press the button three times.

**High trajectory**: Press the R2 button when centring the ball to increase the height of the cross.

**Early cross**: Hold down the L1 button and press the button to execute an early cross. You can make a cross anywhere on the field, not only in the opponent's half.

**Shooting**
- **Shoot**: Press the button to shoot. The height of the shot depends on the length of time the button is held. While the gauge is displayed, press left/right on the directional button to alter the direction of the ball.
- **Direct shot**: Press the button with the ball in the appropriate place to execute heading shots/volley/shots.
- **Lob shot**: Hold down the L1 button and press the button to fire a shot over the goalkeeper's head.

**Lob shot 2**: Hit a low lob shot by pressing the button and then pressing the R1 button while the gauge is displayed.

**Feints**
- **Step over dummy 1**: Press the right analog stick twice in the direction of movement.
- **Step over dummy 2**: Press the L1 button twice.
- **Step over dummy 3**: Press the R2 button twice.

**Kick feint 1**: Press the right analog stick twice to the side of the direction of movement.

**Kick feint 2**: Press the button, and while the gauge is being displayed, press the button to execute a kick feint. For best results, press the and buttons at nearly the same time.

**Kick feint 3**: Press the button, and while the gauge is being displayed, press the button.

**Kick feint 4**: Go through the motions for a centring cross, and just before the ball is kicked, press the button.

**Through feint**
- **Through feint**: Just before the ball is trapped, press and hold the R1 button without pressing the directional buttons to step over the ball and allow it to continue to another player.

### Game Controls/Defense

**Sliding tackle**
- **Sliding tackle**: Use the directional button when an opponent is in possession of the ball to move closer to the ball, and then press the button to execute a sliding tackle.

**Clearance**
- **Clearance**: Press the button when the ball is in your own team's possession to execute a long clearing pass forward.

**Goalkeeper**
- **Movement**
  - Moving the goalkeeper out of the goalmouth: Press the button when an opposing player has possession of the ball to make the goalkeeper sprint towards the ball.
  - Goalkeeper movement: Hold the button and press the L1 button until the cursor points to the goalkeeper. Then, press the directional button in the direction you want the goalkeeper to move. (Only when the "GK Cursor" option is set to ON.)

**Feeds**
- **Drop-kick 1**: button (kicks the ball in the direction that the directional button is being held)
- **Drop-kick 2**: button (kicks the ball in the direction that the directional button is being held)
- **Throwing**: button (throws the ball to the team mate in the direction that the directional button is being held)

**Common Controls Attack/Defense**
- **Dash**: Press the R1 button while running.
- **Super Cancel**: Press the R1 and R2 buttons while a player is chasing after the ball to force the player to stop.
- **When ball is in the air**: When the ball is in the air, press the R2 button + the directional button to control the player.
- **Switching between players**: Press the L1 button.
- **Activate/cancel strategies when in Manual Mode**: L2 button + button: Activate/cancel strategies set for the button.
- **L2 button + button: Activate/cancel strategies set for the button.
- **L2 button + button: Activate/cancel strategies set for the button.
- **L2 button + button: Activate/cancel strategies set for the button.

**Activate/cancel strategies when in Semi-Auto Mode**: Press the L2 button.

**Attack/Defense level**
- **L2 button + R1 button**: Move the Attack/Defense Level towards Attack.
- **L2 button + R2 button**: Move the Attack/Defense Level towards Defense.

**ANALOG mode button**: Enable/disable the left/right analog sticks analog mode (indicator : red) / digital mode (indicator : off).

**Mode Indicator**: analog mode (indicator : red) (does not support controller vibration function).

* The Tutorial in Training Mode also gives an explanation of game controls.
Corner kicks

Corner kick: ◎ button (Hold up on the directional button or the R1 button for a low trajectory and hold the R2 button for a high trajectory. Hold down on the directional button for a cross along the ground. Hold left or right on the directional button for a curling kick.)
Short corner kicks: Press the ◎ button when taking a corner kick to execute a short pass to a nearby team mate.

Free kicks

Short pass: Press the ◎ button when taking a free kick to execute a short pass in the direction that the directional button is being held.
Long pass: ◎ button (Hold up on the directional button or the R1 button for a low trajectory and hold the R2 button for a high trajectory. Hold down on the directional button to pass along the ground. Hold left or right on the directional button for a curling kick.)
Through ball: Press the ç button when taking a free kick to execute a through ball in the direction that the directional button is being held.

Penalties/Penalty Matches
A maximum of six directions each can be selected for the goalkeeper and the kicker.

Directional button directions: For a diagonal, press left/down or right/down on the directional button.
Kicker: Press the ◎ button to kick the ball in the direction the directional button is being held.
Goalkeeper: Try to guess the location of the shot before it is kicked and hold down the directional button in the appropriate direction.

Game modes/Player settings

When a mode is selected, a Setup Screen is displayed. Use the directional button to select options, the button to enter the selection and the button to cancel.

Select Player
1 You play the game.
2 The game is played with computer (COM) support.
3 The actual game is played by the computer, but you set up and execute team formation and strategy. Player settings can be changed before the game starts. Co-operative play is possible in League Mode, but it is not possible for players to compete against each other. The same applies for Cup matches played in 1-player mode. Settings are saved in the Option File. Player Settings for multi-player games in Cup Mode are only valid for the game in progress and cannot be saved.

Cursor Change Speed: Sets the speed at which the player cursor (which is displayed over players’ heads during matches) switches between players.
- Fixed - The cursor will be fixed on a specific player.
- Manual - Cursor switching is controlled by the player.
- Semi-Auto - There are 8 speed settings, ranging from 1 (slow) to IIIIIIII (fast).
- GK Cursor: Determines whether the player cursor displayed over players’ heads during matches will switch to the goalkeeper.
  - ON: While on defense, pressing the button + cursor change will shift the cursor to the goalkeeper.
  - OFF: The player cursor cannot be shifted to the goalkeeper.

Cursor Name Display: Sets the player cursor display to "Default", "Player 1", "Player Name", or "Load".
- Default - Displays the player's number (1-8).
- Player 1 - Displays the name entered under "Cursor Name" on the "Game Options" screen.
- Player Name - Displays the player name used in the game.
- Load - Loads a name stored on a separate memory card (8MB) (for PlayStation®2).

Controls
1 Press the button to enable the Player Cursor Name Display setting.
2 Press left and right on the directional button to select the display type.
3 Press the button again to exit the Player Cursor Name Display setting.
- Default - Displays the player's number (1-8).
- Player 1 - Displays the name entered under "Cursor Name" on the "Game Options" screen.
- Player Name - Displays the player name used in the game.
- Load - Loads a name stored on a separate memory card (8MB) (for PlayStation®2).

Load Cursor Names: Loads cursor names from an options file. Select "Load" for the Cursor Name Display setting and press the button to load names from a compatible memory card (8MB) (for PlayStation®2). This will load the options file from the memory card (8MB) (for PlayStation®2) in the memory card slot of the same number as the controller currently in use. The cursor name data for controller 1 (1-A) only will be taken from the options file and applied to the controller currently in use.

Game modes/General Settings

Team Selection Select the team that is to take part in the match. Use the button to enter the selection, the button to go back and the button to select the teams randomly. In Cup Mode and League Mode, the button resets all teams.

General Settings
Select one of five difficulty levels, from Easy (*) to Hard (****). The Masters League is equipped with separate Masters League difficulty level settings.

Conditions: Set each team’s condition.

Max. no. of Substitutions
Set the number of players that can be brought on as substitutes during the game.

Stadium effects
Set the effects that occur in the stadium during the game, such as the release of flares, etc.
* When playing in certain stadiums, or if the Japan national team is playing, flares will not be released regardless of the “Yes/No” setting.

Stadium
Select the stadium in which the match is to be played.

Commentary stance
Neutral: Commentary favours neither the home or away teams.
Player: Commentary favours the player team. During 2-player games, commentary reverts to "neutral".
Home: Commentary favours the home team.
Away: Commentary favours the away team.

Support stance
Home and Away: Crowd supports the home team.
Neutral: Crowd supports no particular team.
Player: Crowd supports the player’s team. During 2-player games crowd support reverts to "neutral".
Active: Crowd support changes depending on match conditions. (Only available in Master League mode.)
Game Modes/Match Modes

Match Mode (Exhibition Match / Quick Start / Penalties)

This mode allows you to choose your favourite teams and play a single match. For a "PK Match", the kicking order must be set. For an “Exhibition Match", press the L1/R1 buttons to switch between the 56 national teams and the 64 club teams, and select your favourite teams. National teams can play against club teams. Alternatively, select the Master League icon below and to the right of the club teams to load your own Master League teams and pit them against each other. In the “Penalties”, two teams are selected from among the 56 national teams and 64 club teams to participate in a penalty shootout.

Team 1 vs. Team 2

Loading Team 1: Use MEMORY CARD slot 1 (1-A).
Load Edited Club Team Data *1
Load Master League Data

Loading Team 2: Use MEMORY CARD slot 2 (2-A).
Load Edited Club Team Data *1
Load Master League Data
Proceed to the Player Settings Screen.

Team 1 vs. Existing Team

Memory card slot 1 (1-A) is used to load Team 1.
Load Team Edit Data *1
Load Master League Data
Proceed to the Player Settings Screen

Existing Team vs. Team 2

Memory card slot 2 (2-A) is used to load Team 2.
Load Team Edit Data *1
Load Master League Data
Proceed to the Player Settings Screen

*1: Loaded data consists of flag, uniform, and team information, and is only valid for the current match. Please note that player data is NOT loaded.

Game Modes/League Mode

League Mode

Select 16 nations to take part in a round robin tournament against the computer for a full season (30 games) or a half season (15 games). Extra time and penalty shootouts do not take place.

About Formations

In League and Master League Modes, team formations can be changed using the “Formation” option on the “Team Management” screen. These settings are saved in the League Data. Also, opening the Pause Menu during a match and choosing “Formation Settings” ‡ “Stock Current Formation” will overwrite the formation data with the team’s current positioning, allowing the team to start with that formation in future matches. The “Stock Current Formation” option on the pre-match Setup Menu works in the same way.

Information Screen

Rankings: Displays team rankings, points, and goals for and against.
Consecutive wins: Displays each team’s wins and losses and its longest winning streak.
Rankings History: Displays a graph showing the changes in each team’s ranking.
Team Info: Displays points, winning percentage, and player goals and injuries for each team.
Goal/Assist Rankings: Displays a list of the 16 highest-scoring players overall.
Schedule: Displays the opponent list for next season and beyond as well as scores from past matches.
Tournament: Displays the progress of tournaments.
Rankings/Matches: When playing in Group League format, displays the status of each group.

Memory Card Slots

When loading Master League Data, MEMORY CARD slot 1 (1-A) is used for Team 1 and MEMORY CARD slot 2 (2-A) is used for Team 2. The MEMORY CARD slots are not only used for loading Edited Club Team Data and Master League Data, but also when Formation Setup is accessed immediately before the game starts or from the Pause Menu while the game is in progress.

Environment settings
These settings control various environmental factors in the game.

Basic settings p.16.
Master League-only settings p. 22

Accumulated Fatigue: Allows you to choose whether players carry over built-up fatigue from one match to the next or recover between matches.

Strip Selection: Allows you to choose each team’s strip type before the match.

Change Environment Settings: Determines whether environmental settings can be changed after the match starts.

Cheat Prevention Save: Determines whether a penalty is applied for resetting in the middle of a match.

Auto-Save: Determines whether results will be saved automatically at the end of the match. (This is not the same Auto-Save as the one for the options file.)

Game modes/Cup mode

Cup Mode (International Cup, European Cup, Africa Cup, America Cup, Asia-Oceania Cup, KONAMI Cup)

International Cup
In the International Cup tournament, 32 countries are split into 8 groups of 4 teams each and take part in a round robin qualifying tournament. The top 16 teams qualify to take part in the main tournament.

European Cup
In the European Cup, 16 teams are split into 4 groups of 4 teams each to take part in a round robin qualifying tournament. The top 8 teams qualify to take part in the main tournament.

African Cup/American Cup/Asia-Oceania Cup
Teams are selected from each region for the African Cup, American Cup, and Asia-Oceania, and these teams take part in a tournament.

KONAMI Cup
The tournament format can be set to Group, Tournament, or Round Robin. You can also select the number of participating teams.

Cup Tournaments
International Cup (knockout tournament)
European Cup (knockout tournament)
African Cup
American Cup
Asia-Oceania Cup
KONAMI Cup (Knockout tournament)

Group League Tournaments
International Cup (qualifying group league)
European Cup (qualifying group league)
KONAMI Cup (qualifying group league)
The two top teams in each group proceed to the final knockout tournament.

Round Robin Tournaments
KONAMI Cup (round robin tournament)

Home and Away Format
In tournaments with a home and away format, each round includes two games – one home and one away game. When both games result in a draw, the total number of points for the away games are doubled (away game doubling format). If this fails to produce a winner, extra time and then penalty shootouts are played to decide the winner. The home and away format can be set at ON/OFF for the African Cup, the American Cup, the Asia-Oceania Cup and the KONAMI Cup.
Starting the Game

Master League Mode
In Master League Mode, the object is to create and run your own team with players of your choosing and build it into a powerhouse. There are four leagues - Northern, Southern, Eastern, and Western - and each league is divided into Division 1 (14 teams) and Division 2 (8 teams). Your team competes against computer teams (called COM teams) in a league format. Depending the overall record, teams may be promoted or relegated between Division 1 and Division 2, and those with good records are invited to participate in big tournaments. In addition, teams accumulate points by winning matches, and these points can be used to acquire new players and pay player salaries.

Teams
No matter which team is selected, its beginning roster will be the same. By negotiating to acquire new players and releasing old players, you can build your own team. The team roster must consist of no fewer than 16 players and no more than 40 players. You can only negotiate with a maximum of 5 players at a time.

Game Over
The game ends if the team’s roster falls below 16 players, the team’s point total drops below -9,999, or the team has a negative point total at the end of the season.

Viewing Information
Results and schedules for Master League and Cup matches can be found under their respective tournaments. See p. 19: “Information Screen” for more details.

Master League Mode

Team Management
Choose this option to control team management functions.

Formation: This sets the basic formation of the team. Any changes made here will affect the match in progress.

Negotiations: Negotiate with players and other teams in order to acquire new players, renew expired contracts or cancel existing contracts.

Transfer Program Information: Shows transfers made by all teams. This screen can be accessed when a transfer is carried out.

Upcoming Transfers: Provides information on transfers scheduled for the next season.

Team History Log: Displays a record of the team’s history. Up to 15 past seasons can be viewed.

Team Training: Carry out free training with the player team.

Modify Player Number: Change the player numbers.

Edit Team: Edit team data, including the flag and name of the club team.

Training Promising Players: If there are young players who can be developed, select this option to train them.

Calendar: View the current season’s schedule for your team.

Environment Settings
Choose this option to set various environmental factors in the game.

Basic settings p. 16  League/Cup Mode settings p. 19

Master League Negotiation Settings

Retired Player Acquisition: Determines whether COM teams will acquire players who are currently retired.

Transfer Frequency: Determines how often COM teams will initiate transfers.

Level of Acquired Players: Determines the ability levels of players acquired by COM teams.

Acquisition Difficulty: Determines how willing COM teams are to negotiate.
When an application for contract renewal negotiations is received

At the beginning of the off-season (week 36), you will enter into contract renewal negotiations with players whose contracts have expired. If no action is taken, all contracts will automatically be renewed. If “Cancel Negotiations” is selected, the player will leave the team. Unless a sufficient number of bonus points are offered at contract renewal time, the player may decline to renew his contract.
**Game Modes/Master League Mode**

**Master League Mode**

**Acquiring Created Players**

Created players can be acquired for use in the Masters League. It is possible to add created players to the team selection column on the player selection screen in Negotiations. Created player data added to a team will be stocked as saved Masters League Data. This prevents the acquired player from being affected by any future editing. It is possible to make changes to such players by creating a new player incorporating the changes and acquiring them. A maximum of 40 edited players can be stocked in saved Masters League Data.

**Editing Club Teams**

It is possible to edit Club Team names, strips, flags and other details. See p. 31 for further details.

**Modify Player Numbers**

Player numbers can be freely modified. See p. 30 for further details.

**Training**

It is possible to carry out free training for the player team. In the Masters League, the weather for a season will not change no matter how many times training is carried out. See p. 27 for further details on Free Training.

**Training Promising Players**

Once a promising player has been acquired, it is possible to train that player. Points earned from winning matches can be allocated to increase the various ability levels of the player and improve his performance.

**Training Time Limit**

After a fixed amount of time has elapsed, further training will no longer be possible. Be sure to pay attention to the time limit.

**Advice on avoiding Game Over**

Applying for negotiations without a firm plan in mind may result in the number of points being paid out exceeding the number of points possessed. Keep a close eye on the number of points you have left.

See the section on Continuing a Saved Game (p. 35) for details on continuing games using data saved to a memory card (8mb)(for PlayStation®2).

**Game modes / Master League mode**

**Prerequisite for moving up to Division 1:**
Finish in top 2 in relegation/promotion playoffs

**Prerequisites for qualifying for the championships:**
- To qualify for preliminary group league...finish in 3rd to 6th place in Division 1
- To qualify for main group league...finish in top 2 in Division 1
- To qualify for main group league...finish in top 2 in preliminary group league
- To qualify for championship tournament...finish in top 2 in main group league

**Game modes / Training League mode**

**Training Mode**
(Free Training / Challenge Training / Beginner Lesson / Control Descriptions)

**Free Training**
Practice a wide range of techniques, including shots on goal, free kicks and set plays. Player teams can also be divided into practice squads for free training.

**General Settings**

**Foul**
Set whether fouls will be called or not.

**Offside**
Set whether offside calls will be made or not.

**G./C. Kick/ Throw in**
Set the side on which the game restarts on a goal kick, corner kick, or throw-in after the ball goes out of play.

**Play Again Button**
Assigns the Play Again Retry function to the SELECT button.
If you are already in the Free Training, press pause and select the “General Settings”. You will be able to assign the Play Again Retry to the Select Button. This way, when ever you press select, you can retry with the same conditions.

**Squad Games**
To play an intra-team practice game, enter the Formation Settings screen from the Pause Menu. Press the START button to switch control to the away team side. Move the cursor to the players who will be participating in the match and press the button to confirm. To remove the player from the team, press the button once again. Once settings are complete and you end pause, the selected players will enter the pitch and begin practicing.

**Challenge Training**
This mode allows you to have fun while learning the controls used in the game. Each event is divided into levels. Beating the target score for a level will allow you to proceed to the next level. Achieving a high score will qualify you for the rankings. Clear progress and rankings data can be saved to a memory card (8MB) (for PlayStation®2). By loading this data (Challenge Data), you can compete to break your previous records. (Turning the Auto-Save setting on the Options screen to ON will cause data to be saved whenever a new record is set.)

**Original Dribble Challenge**
This mode can be unlocked by exchanging PES accumulated during the game at the PES Shop. It allows dribbling courses to be edited and used for practice.

**Beginner Lesson**
Get hints on basic game techniques and practice using them.

**Control**
Provides explanations of the game’s basic controls. Press the buttons as indicated to learn the controls.

**Saving in Training Mode**
Environment settings for Free Training and Challenge Training are saved in the “Pro Evolution Soccer 3” options file.

**Game modes / Master League mode**

**Prerequisite for moving up to Division 1:**
Finish in top 2 in relegation/promotion playoffs

**Prerequisites for qualifying for the championships:**
- To qualify for preliminary group league...finish in 3rd to 6th place in Division 1
- To qualify for main group league...finish in top 2 in Division 1
- To qualify for main group league...finish in top 2 in preliminary group league
- To qualify for championship tournament...finish in top 2 in main group league
Create a player to edit
1. Select Create Player to display the creation screen.
2. The player first displayed does not have an assigned name or nationality. Specify the required details for each field to create a player based on an existing player.

Player Name
Enter the name of the player. Players who have not been named cannot be stocked.

Select Player Commentary Name
Select the name that the player is to be called by the commentator during matches. When "Player Number" is selected, commentary is carried out based on the player's shirt number.

Strip Name
Enter the name to be used on the back of the player's jersey.

Position Settings
Set the player's suitability for each position. If the player is suitable for multiple positions, the position listed under “Registered Position” will be displayed during matches. If the player participates in a match at a position for which he is not suited, the player's abilities will suffer greatly.

Basic Settings
Enter basic information about the player. The player’s nationality will initially be selected randomly at first.

Appearance Settings
Set the player's appearance. Press the button to switch to the Montage Creation screen.

Ability Settings
Set the player's abilities.

Special Ability Settings
There is no limit to the number of special abilities a player can have.

3. After all the parameters have been set, the player is “stocked”. Stock the created player in any of the empty Non-Registered Player locations between 1 and 8 in the edit column. Players who have been stocked can be registered in a team using the Player Registration function on the main menu, making them eligible to play in actual games.

Modify Players
Modify player names, physical appearance, ability and other parameters. Created players whose nationality is set to “Free” will assume the nationality of the national team to which they are registered, so their nationality cannot be changed.

Deleting Created Players
Delete created players. Players who have been registered in teams cannot be deleted. To delete registered players, use the Player Registration function to return them to the Created Player Frame.

Modify Player Numbers
Set player numbers. If a number that is already being used in the team is assigned to a second player, the two players concerned will exchange numbers.

Number Input
Enter a 4-digit number.
Edit Club Teams
Edit the name, strip, flag and other parameters for teams used in the Master League. Any changes here will be effective in all modes.

Team Names
Team names can be written in English or in three-letter codes.

Flags
Edit the flag used by a team or create a new flag. Flags can be freely designed by placing up to 8 foreground elements on a background. The type, position, size, colour, transparency, and priority of each element can be edited, and each can be rotated and reversed up/down/left/right. After selecting “OK” on the Layer List Menu, choose a location to store the new flag. After all of the foreground elements and the background have been generated, the flag will be stored in the selected location. The stored flag can not only be selected as the flag of a club team, but can also be used as the background when designing a new flag. In addition to stock locations 1 through 64, flags in progress can also be stored in the layer list. This feature can be used to hold an early version of a flag in progress; later, if the flag does not turn out the way you want it, you can recall the earlier version and redo it. Flags in progress are temporary objects, so exiting Edit Mode (or Team Edit Mode in the case of Master League) will cause them to be lost.

Game Modes/Edit Mode

Edit Mode
Edit the team strip. To return strips to their original state, select “Default Strip” on the Select Strip to Use screen. Goalkeeper strips/default strips cannot be edited.

Uniform Name and Number
Edit the names and numbers displayed on the back of the jerseys.

Team Colours
Change the team’s image colour. This affects the colour of the seats in the stands.

Stadiums
Change the home stadium.

Save Data Manager
Edited Data Manager
Load player names, parameters and other data from a friend’s Player Data/Edited Club Team Data and copy it into your own Option File.

Option File
Edited data is saved in the Option File. It is also possible to load Edited Data that has been saved in the Option File.

Copying Data
Items that can be copied.

Player data
Player names, appearance settings and other parameters.

Edited Club Team Data
Flags, strips, and team information.

Items that cannot be copied
Edited players cannot be copied.

Saving Data
Copied data will be lost when the power is turned OFF. It is therefore necessary to save copied data in the Option File. By saving in the Option File, it is possible to restart a game from the place where the data was last saved, even if the system was reset.
**Game Option**

**PES Data Control**
Choose this option to save and load Option Files and adjust the Auto-Save settings. Data from previous titles in the “Pro Evolution” series can also be imported here.

**Option File**

**Auto-Save**
Turn the Option File Auto Save function ON/OFF. This setting will be invalid if the Option File is not loaded/saved when the system is started up.

**Load Option File**
Load the Option File from the memory card (8MB) (for PlayStation®2) to change game settings. All settings will change to the loaded settings.

**Save Option File**
Save the current settings in the Option File on the memory card (8MB) (for PlayStation®2).

**PES2 Data Load**
Load edited player names from a “Pro Evolution Soccer 2” Option File.

**Copy Saved Data**
Copy game data saved to the memory card (8MB) (for PlayStation®2)

**Delete Saved Data**
Delete game data saved on the memory card (8MB) (for PlayStation®2)

**Button Configuration**
Change the controls during matched, pass settings and other parameters.

**Enter Cursor Name**
Edit the text displayed in the player cursor used in the game. Edited text can be saved in the Option File.

**Sound Settings**
Edit the sound environment used during matches.

**Game modes/game options**

**Gallery**
Select this option to view the cup gallery, replays, or the credits.

**Cup Gallery**
View any cups acquired so far.

**Replay Playback**
Play back saved replay data.

**Credits**
See who made “Pro Evolution Soccer 3”.

**PES Shop**
Exchange PES (points acquired during the game), for the following bonuses.

**How to Gain PES**
- Play a match in Match Mode (excluding Penalty matches)
- Perform well in Master League Mode, League Mode, or Cup Mode
- Clear a level in Challenge Training
(Does not apply to Original Dribble Challenge. Awarded the first time a level is cleared in a certain event in normal Challenge mode.)

**PES-Related Options**

**Display when PES are Earned**
Turns the display that appears when PES are acquired on or off.

**PES Auto-Save**
If Option File Auto-Save is set to ON, determines whether data will be saved when PES are acquired or used.

**Edit Appearance:**
- Hairstyle
- Classic Shorts

**Exhibition Stadium**
Adds a new stadium and practice field that can be selected in Exhibition Mode.

**Training Ground**
Adds a new stadium that can be selected in Free Training Mode.

**Replay Ball Effect**
Allows special effects to be added to the ball’s trail during replays.

**Double-Speed Matches**
Allows matches to be played at twice the speed.

**Fan appreciation**
Allows music to be played back.

**Teams**
Adds a new selectable team.

**Players**
Adds a new player that can be acquired in Master League Mode.

**Choose Club / Trade Free Agent**
Allows a player’s club team affiliation to be changed.

**Edit Team Strategy**
Allows a team’s default strategy to be edited.

**Original Dribble Challenge**
Allows dribble courses in Challenge Training to be edited and used for practice.
Game modes/game options

Game Options

Screen
Adjust the image position on your television or monitor.

Continuing a game

Load Data
Insert the memory card (8MB) (for PlayStation®2) that contains saved game data into MEMORY CARD slot 1. After choosing the game mode, select Load Data and you will be taken to the memory card (8MB) (for PlayStation®2) screen. Choose the data you wish to use and start the game.

Load General Settings
Load only general settings for Cup Mode. Loads data such as tournament match-ups. Variables such as the number of participating teams and players can be changed at any time.

Game modes/game setup

It is possible to change a wide range of parameters before matches start. Select the item to alter with up/down on the directional button. Alter the settings with right/left on the directional button, and then enter the new settings with the ◆ button. Use the ◄ button to cancel the selection. The formations and strategies that are normally used are used as the starting settings. Edited formation/strategy data that has been stocked using the Stock option from Formation Setup will be automatically loaded when the Formation Screen is accessed.

Formation Setup

Formation and Strategy Settings
The team formation can be altered even while a match is in progress by pressing the START button to display the Pause Screen.

If you have accumulated fatigue switched on in the Master League Mode, League Mode or Cup Mode settings, the fatigue level indicator will also be displayed.
**Substitutions**

Select the player to be replaced and the substitute player with the button. The substitution will take place the next time the ball is out of play. The players who have received a red card or accumulated too many yellow cards are not eligible to play, and their names will be darkened. Use the L2/R2 buttons to switch the parameters. Use the button to switch the Co-operation Screen display ON/OFF.

**Co-operation Displays**
- Co-operation level (%)
- Co-operation Lines
- Formation Settings
- Formation
- Change
- Position Edit
- Select Position

**Match Setup**

**Positions**
- **CF (Centre Forward):** Takes shots in front of the goal.
- **WF (Wing Forward):** Creates scoring opportunities by dashing up the sides.
- **OMF (Offensive Mid-Fielder):** Initiates attacking motions from the upper mid-field.
- **SMF (Side Mid-Fielder):** Initiates attacking motions from the sides.
- **CMF (Centre Mid-Fielder):** Provides well-balanced support in attack and in defense.
- **DMF (Defensive Mid-Fielder):** Defends in the lower mid-field. Can also initiate attacking motions.
- **SB (Side Back):** Defends against attacks down the sides of the pitch. Can also move forward to participate in attacking plays.
- **CBT (Centre Back Stopper):** Stops attacks made by the opposing team in front of the goal.
- **CBW (Centre Back Sweeper):** Plays a clean-up role behind the back line.
- **GK (Goalkeeper):** Guards the goal.

**Automatic Sort**

Automatically sort the players in the order of their positions in the formation.

**Individual**

**Attack**

To change the attack mindedness of a player, move the cursor to the player you wish to change, press the button to select, and use the directional button to change the setting. Press the button again to confirm. You can change this setting for a maximum of two areas of attack.

**Defense Mindedness**

Move the cursor to the player you wish to change, press the button and adjust the player’s level of defense mindedness.

**Mark Settings**

Change each player’s mark settings. Move the cursor to the player you wish to change and press the button select the player. If you have the Defense System set to Line Defense, the mark settings option is disabled.

- **Covering:** Defends an area of the pitch rather than a particular player.
- **Zone Mark:** Stays with an opposing player who enters his zone, and stops when they move away.
- **Man Mark:** Marks a particular opposing player.

**Match Environment**

**Team**

**Attack/Defense**

Displayed under each player’s nameplate during a match. There are five levels of settings. The option enables you to raise or lower the whole team’s attack mindedness and defense mindedness. You can select from between four types: Manual (L2 button + R1 button OR R2 button), auto-defense, normal, and auto-attack.
About the attack/defense level.
If the level is raised when attacking, the defense will push up the attacks will become more
effective. On the other hand, if you lower the level your team will be less vulnerable to the
counter-attack.
If the level is raised when you are defending, defenders will play aggressively to win the ball
and the opposition’s passing options will be reduced. If the level is lowered, the defense
will drop back in numbers to defend. With this function you can move your defensive line
forward and back.
If you adjust the level to the maximum, either attack or defense, all players on the team will
move to defend or attack accordingly, regardless of their individual attack/defense
mindedness settings. A defensively-minded player can be made to move forward to attack.
(See p. 43 for explanations about the Adjusting Attack/Defense Level option on the
Match/Game Screen.)

Defense System
Choose your defensive strategy.
Normal - If a defensive player does not have individual mark settings, the player will mark
an opposition player that enters his own zone.
Sweeper - A system where one player is kept as a "spare" while other players mark the
opposition players. The sweeper must be selected. In this system, when a player is
designated as the sweeper, you will be unable to change his mark settings.
Line Defense - The back defensive line moves as a unit to preserve its formation. When
this option is selected, you cannot change the mark settings.

Team Strategy
Select team strategies. These settings may also have an effect on other strategy settings.
Back line - Moving the back line forward causes the defense to play further forward.
Zone press - This setting causes multiple defenders to approach the opponent ball carrier.
Offside trap - The defensive line will move forward and play the offside trap.
Counter attack - No matter where the ball is, on player will play well forward in an attacking
position.
A: The strategy will be actively pursued, but the players will tire quickly.
B: The strategy will be pursued at a normal level.
C: The strategy will not be pursued very actively, but the players will tire slowly.

List settings
Change Team Strategy, Defense System, and Attack/Defense Level settings in list format.

Setting Strategy
A maximum of four strategies can be set. There are two
Strategy Modes: Semi-Auto and Manual. In Semi-Auto Mode,
one of the four strategies is executed by the player, and the
other three are executed automatically. The strategies are
executed by pressing the L2 button. In Manual Mode, the
player executes all four strategies. A strategy is assigned to
each of the B, A, and D buttons, and these strategies are
executed individually during matches by pressing the relevant
button together with the L2 button. The names of the strategies
are not displayed during matches, so you will have to
remember which strategy is assigned to which button. All four
strategies can be executed at the same time.

Strategy Settings
No Strategy
Normal: Strategy balanced between attack and defense.
Centre Attack: Players move forward the center of the pitch and attack aggressively
through the center.
Right Side Attack: Players move towards the right-hand side of the pitch and
aggressively try to outflank their opponents in the right field.
Left Side Attack: Players move towards the left hand side of the pitch and aggressively
try to outflank their opponents in the left field.
Opposite Side Attack: Positions players on the opposite side of the pitch to where the
action is taking place to facilitate changes.
Change Sides: Left and sides of the formation switch places to confuse the opposing
team.
Centre Back Overlap: The center back takes part in the attack on goal.
Zone Press: Players move towards the ball.
Counter Attack: Attacking players remain near the opponent’s defense line.
Offside Trap: Moves the defense line up-field.
Formation A/B: The team formation can be changed to a preset formation.
*When both Formations A and B are selected, Formation A will be used.

Formation A/B
When the Formation A/B has been selected, you can adjust the settings here.

Copy to "A" / "B"
Copy the current settings to the Formation A/B settings.
**Choose a Captain**
Select the team captain.

**Quick Settings**
Please see Quick Formation (p. 4)

**Stock**
You can save up to ten sets of formation and strategy settings data for each of the home and away teams. By selecting Stock from the menu with the ≈ button you can update and change each set of data. Copy the formation data selected with the ≈ button by pressing the ≈ button again in a different location. By indicating data to be copied as "Current settings" and the copy location as "Copy location" you can record the "Current settings". On the other hand, by assigning the copy target as "Current settings", you change the current setting to the recorded settings. (In other words, you can load the recorded settings. You can select any of the ten data slots to copy formation data.) By setting the data to be copied as the "Default data" and the copy target as "Current settings", you can restore all settings to their default values.

If you have your own team data saved, the most recent data will automatically be loaded and reflected in the Formation Settings when you enter the Formation Settings screen during set-up (Auto load). This does not apply however, when you play League Mode, Master League Mode, or Training Mode.

**Data currently being used**
Saved data
Default data

---

**Kicker/Captain**

Select a kicker
Selects players to take free kicks (short/long), corner kicks (from left/right) and penalty kicks.

- **P.K.**: Penalty kick
- **CK**: Corner Kick
- **L**: Left corner
- **R**: Right corner
- **FK**: Free kick
- **S**: Short
- **L**: Long

**Choose a Captain**
Select the team captain.

**Quick Settings**
Please see Quick Formation (p. 4)

**Stock**
Your international league and master league team data is stocked in Formation Data Manager. In contrast to Formation Copy of the Formation Settings, the contents are made up of League Data or Master League Data. If you save the data to a memory card (8MB) (for PlayStation®2), when continuing with saved league data, the stocked formation will automatically load.

**Formation Data Manager**
Save and load the ten sets of formation data at the formation settings screen.

**Quit** - Exit the formation data utility
**Save** - Save up to ten sets of home team and away team formation data stocked in Formation Settings on a memory card (8MB) (for PlayStation®2).

**Load** - Load formation data from a memory card (8MB) (for PlayStation®2) into ten stock positions each on the home and away side.

**Copy** - Copy one of 10 stocked sets of formation data form the home (away) side to the away (home) side.

**Clear** - Delete 10 sets of stocked formation from the home (or away) side.

**Change** - Switch the 10 sets of stocked data between the home and away side.

**Caution:** When inserting or removing the memory card (8MB) (for PlayStation®2)

When saving or loading, the MEMORY CARD slot used may change according to the circumstances. Please read the instructions on the screen and be sure that are using the correct MEMORY CARD slot.

MEMORY CARD slot 2 (2-A) is used in the following cases:
- When playing two-player Match Mode, the away side player formation data is loaded and saved from MEMORY CARD slot 2.
- When playing a two-player Master League game, the formation data for Team 2 is loaded and saved from MEMORY CARD slot 2.

**Entrance Scene**
Select whether or not to view the Entrance scenes before the match.
During The Match/Game Screen
Display settings can be altered by selecting “Change Display” from the Pause Menu.

Adjusting Attack/Defense Level
L2 button + R1 button: Moves the level towards attack.
L2 Button + R 2 button: Moves the level towards defense.

Offensive
Normal
Defensive
Other Displays

Players who have received yellow cards
The number over the cursor will be displayed in yellow for players who have received a yellow card.

Shooting gauge
A mark behind the shooting gauge will indicate the optimum level for the gauge when taking corner kicks and free kicks.

Play on
When a team is fouled, but in the referee’s judgment the team is in a better position if the game is not stopped for a free kick, play will be allowed to continue.

Penalty Kick Matches
1. Kicker
2. Position, Player, number, Player name, Height, Age
3. Goalkeeper
4. Score
5. Team flag

Pause Menu (during matches)
Resume Match
Cancel Pause Mode and return to the game.

Formation Settings
Access Formation Setup (see p. 36) and the Formation Data Manager (see p. 42). In League Mode, change the Stock Current Formation settings (see p. 42).

Select a kicker (thrower)
Select the player to kick or throw the ball.

Player Settings
Set the speed the player cursor switches between players.

Camera Type
Select the Camera Pan Angle/Camera type for the camera in front of the goal.

Screen Settings
Change display settings for the radar screen, nameplate, time, score and Strategy Screen.

Sounds Settings
Select the volume of the sound effects, music, and commentary.

Button Configuration
Change the button configuration or select the controls of passing.

Replay
Review the previous play.

To Mode Select Menu
Quit the match and return to the mode select.

Pause Menu (in Training Mode)
Menu items are basically the same as above.

Formation Settings
Press the START button on the Formation Screen to control the reserve players. Up to 11 players on the reserve team can take part in the training. Select “Substitutions” for the reserve team, select the players who are to participate or to be removed from training and press the button to confirm the selections. Formation and strategy settings can also be altered. To exchange players with the starting member team, select “Substitutions” from the starting member team, and then move the cursor down. Reserve team players will be displayed at the bottom of the list. Follow the normal procedure for player substitutions to exchange players with the starting member team.

Training Menu
Choose from attack training, shooting practice, free kicks, and set plays.
Training Environment Settings
Change environmental settings other than day/night, season or weather.

Rest
Recovers energy expended during training.

To Mode Select Menu
Quit training and return to the Mode Select Screen.

Results
Check the game data and individual evaluations.

Goal Details
If a goal has been scored in the game, pushing √ will display a breakdown of goal data. As well as goals and assists, shot distance, shot position, and other shot data can be viewed.

Possession
Possession can be checked for each time period.

Compact Formation
Check the distance between the forwards and the defensive players (excluding the goalkeeper). If this distance is short when you are defending, you are effectively reducing the opponent’s opportunity to attack. On the other hand, when attacking it is best for this distance to be long.

Individual Game Records
A list of all the players who participated in the game is displayed. Select a player to view a data screen that shows the actions of that player during the game.

Rating
Assigns a rating out of ten to players who appeared in the game for more than a set period of time.

Area of Play
Shows where the player was active on the field.

Area played to
Shows where on the field the player had possession of the ball.

Area of Possession
Shows where on the field the player had contact with the ball.

Memory Card (8MB) (for PlayStation®2)

Saving Data
Saving data to the Memory Card (8MB) (for PlayStation®2)
Game settings and progress in each Game Mode can be saved to a memory card (8MB) (for PlayStation®2)
To save data to a memory card (8MB) (for PlayStation®2), the following available space is required:

<table>
<thead>
<tr>
<th>Memory Card (8MB) (for PlayStation™2) Space Requirements:</th>
</tr>
</thead>
<tbody>
<tr>
<td>Option File</td>
</tr>
<tr>
<td>Master League Data</td>
</tr>
<tr>
<td>Cup Data</td>
</tr>
<tr>
<td>League Data</td>
</tr>
<tr>
<td>Challenge Data</td>
</tr>
<tr>
<td>Original Dribble Course</td>
</tr>
<tr>
<td>Formation Data</td>
</tr>
<tr>
<td>Replay Data</td>
</tr>
</tbody>
</table>

Memory Card (8MB) (for PlayStation®2) is used for saving data
(with some exceptions, for details see p. 47).
Insert a memory card (8MB) (for PlayStation®2) into MEMORY CARD slot 1. With the exception of the Option File, the save/load screen will be displayed when “Save” or “Load” is selected. Select the location in which the data is to be saved with the directional button, and then press the button to confirm. Data can only be saved in empty spaces or over data of the same type.

To save data over a different type of data, the unwanted data must first be deleted in Delete Mode before saving the new data.

Use the button to switch between Save Mode and Delete Mode.
Press the button to return to the previous screen.

* Only one Option File can be created per memory card (8MB) (for PlayStation®2). A maximum of 35 sets of other data can be created.
save

About Cheat Prevention Save
When starting a new League Mode or Master League Mode game with Cheat Prevention Save set to ON, you must create save game data on a memory card (8MB) (for PlayStation®2). Please note that before a game is finished data up to that point will be automatically saved.

Using MEMORY CARD slot 2 (2-A)
MEMORY CARD slot 2 (2-A) is used in the following cases:

• When saving and loading away team formation data for matches played in the Match Mode.
• When loading Team 2 data for Master League Data Matches played in Match Mode, and when saving/loading Team 2 formation data for Master League Data Matches played in the Match Mode.
• When using the Edited Data Manager in Edit Mode to load a friend’s Option File from a memory card (8MB) (for PlayStation®2).

Data saved in the Option File
The following data is saved in the Option File:

Environment Settings for Exhibition Matches: Weather, match time, level, match format, etc.
Match Settings: Controller settings, camera angles, screen displays, etc.
Edited Data: Player Data, Edited Club Team Data, etc.
Game Options: Button configuration, sound settings, etc.
Training: Save certain training options.

Although it is possible to play the game without the use of an Option File, the Option File contains saved game environment settings, cup data, edited data and other parameters, so saving an Option File to a memory card (8MB) (for PlayStation®2) is recommended. MEMORY CARD slot 1 (1-A) is used for saving and loading the Option File. The system will automatically attempt to load the Option File when the game is started, so ensure that the memory card (8MB) (for PlayStation®2) that contains the Option File has been inserted into MEMORY CARD slot 1 (1-A) before turning on the power. The Option File will be automatically loaded. The game will automatically create an Option File if one does not already exist. A warning message will appear if a memory card (8MB) (for PlayStation®2) has not been inserted or the card inserted does not contain sufficient available space. In this event, follow the on-screen instructions. Also, note that a minimum of 793KB of available space is required on the memory card (8MB) (for PlayStation®2) to save the option file. Once the Option File has been loaded/saved, any changes made during the game will automatically be saved to the memory card (8MB) (for PlayStation®2) in MEMORY CARD slot 1 (1-A). The Option File Auto Save function can be turned ON/OFF by selecting Option File Auto Save Settings on the Game Options Screen.

Auto Save
In order to autosave League Data, Cup Data, and Master League Data, first make a manual save to activate the autosave.

The game includes two auto-save options: Option File Auto Save and Game Data Auto Save (League Data, Cup Data, and Master League Data). Note that different data is saved in each of these cases. Option File Auto Save can be turned ON/OFF from the Game Options screen or with the Option File Settings in Edit Mode. Game Data Auto Save can be turned ON/OFF from each game menu.

Copy Saved Data
It is possible to copy data saved in locations 1 to 35 on the memory card (8MB) (for PlayStation®2) to another location, as long as that location is either empty or contains the same type of data. To save data over a different type of data, the unwanted data must first be deleted in Delete Mode before saving the new data. Location 36 on the memory card (8MB)(for PlayStation®2) is used for the Option File and cannot be copied.

Delete Saved Data
Delete data saved in locations 1 to 36 on the memory card (8MB) (for PlayStation®2). (The Option File can also be deleted.)
